

Informed Consent and NDA Form

Key-Stakeholder Community Participation

This consent form is about participating in the Stakeholder Community with partners from academia, industry, governments and/or societal partners in the project of MED FOOD TTHubs, part of the PRIMA programme supported by the European Union's Horizon 2020 Research and Innovation programme, under Grant Agreement No 1931.

This research will involve your participation in the Stakeholder Community, which will terminate on 31 March 2023.

Please read the text carefully and give your consent by signing on the appropriate line below.

The information you give in the above-mentioned activity will be used to develop practices and partnerships within the MED Food TTHubs project.

Your participation is voluntary. Confidentiality will be granted for your individual declarations, comments, and opinions and you will not be personally linked to specific declarations, comments and opinions.

The Stakeholder Community will only give access to information which is not in conflict to any Intellectual Property Rights. Personal data will be treated according to GDPR law.

You can withdraw from participation in this activity at any time. A withdrawal would mean that nothing said by you will be used in the analysis and report.

If you have additional questions e.g. purpose, design or data collection, please contact:

Marianna Faraldi, Stakeholder Manager – m.faraldi@tecnoolimenti.com

Consent

I have received information about the MED Food TTHubs project.

I have been given the opportunity to ask questions regarding the role expected by me, and I know to whom I should turn with further questions.

I willingly participate in the working groups/focus groups/interviews and have been informed about the purpose of my participation.

I am aware of the option to withdraw from participation in this activity at any time. A withdrawal would mean that nothing said by me will be used in the analysis and report.

I am aware that I should not disseminate outside of my own organisation and any information related to the content of the project, its findings, the discussion in which I am involved, unless I am specifically requested by the Project.

I give my consent to MED Food TTHubs to document, analyse and store the information collected in the working groups/focus group/interview, and that results from the study can be published. Material from this activity will be treated confidentially in a way that name and organisational belonging will not be linked to individual statements.
